CASA ATENTA

DALL-E 3 PROMPT BOOK

*Manual de Generación Visual y Consistencia Estética
para ChatGPT y DALL-E 3*

VERSIÓN: 1.0 // MAYO 2026

DOCUMENTO TÉCNICO INTERNO

PRODUCCIÓN INTEGRADA PARA REDES SOCIALES

1. AESTHETIC DNA // DIRECTRICES DE DISEÑO

Este manual de prompts ha sido diseñado para ser copiado directamente y ejecutado en ChatGPT (DALL-E 3) en tu conversación especializada. La correcta aplicación de estas fórmulas tipográficas e instrucciones de encuadre garantiza que el lote de imágenes respete el ADN visual de Casa Atenta.

DIRECTRIZ INICIAL DE ENTRENAMIENTO (COPIAR PRIMERO EN CHATGPT):

Actúa como un fotógrafo profesional de arquitectura minimalista contemporánea y director de arte. Toda imagen que generemos debe seguir estas reglas estrictas:

1. Estilo de Foto: Fotografía realista analógica de formato medio (Hasselblad), grano de película fino, enfoque nítido. Estética de arquitectura premium contemporánea, cruda, tipo UGC.
2. Paleta de Colores: Gris concreto natural, tonos cielo azul profundo ('celestina'), sombras carbón (#0d0d0d) y rebotes sutiles de bronce/oro cepillado (#c5a880) por la luz solar indirecta.
3. Materialidad: Concreto encofrado a tablilla, concreto pulido, yeso rugoso, piedra volcánica y bronce.
4. Prohibiciones: NO colocar tiras LED visibles, neón, luces artificiales modernas, ni rostros humanos.

2. SECCIÓN INICIO / HERO & MANIFIESTO

ASSET H-01: PORTADA INMERSIVA (TRAGALUZ CONTRAPICADO)

Ubicación: Portada principal (Fondo Parallax). Muestra el encuentro de concreto y cielo.

Professional architectural photography of the interior of a minimalist raw concrete pavilion. Extreme low-angle shot looking directly up at a clean geometric skylight opening in the concrete ceiling. Through the opening, a clear, deep blue sky is visible. Soft natural daylight floods the concrete walls, highlighting the porous texture and subtle wood-board formwork marks. Dark charcoal shadows frame the composition. Serene, massive, silent, and highly tactile. Analog film texture, high fidelity, 16:9.

ASSET M-01: CONCEPTO DE LO 'INVISIBLE'

Ubicación: Vista principal del manifiesto. Demuestra la disolución de la tecnología.

Architectural study of light and space. A vast, empty room with raw concrete walls and a polished concrete floor. A single vertical shaft of natural sunlight slices through a narrow hidden opening, illuminating the air and striking the floor, creating a bright geometric pool of light. No visible technology, no cables, no screens. Extreme minimalism, silence, poetic atmosphere, dark charcoal tones, and soft blue sky ambient fill. Editorial magazine style.

3. SECCIÓN SERVICIOS (INTEGRACIONES OCULTAS)

ASSET S-01: ACÚSTICA ACTIVA (AUDIO EN MURO)

Concepto: Transductores invisibles detrás de la placa de yeso que hacen vibrar el muro.

Close-up profile of a person's hand gently touching a beautifully textured raw concrete wall, suggesting they feel invisible acoustic vibrations. Soft, natural daylight grazes the concrete pores. The composition is calm and poetic, focusing on the tactile relationship between the human hand and the concrete structure. Warm ambient light, analog film texture.

ASSET S-02: CLIMA CIRCULAR (VENTILACIÓN OCULTA)

Concepto: Ranura de difusión invisible en el encuentro constructivo entre techo y muro.

Detail photography of a modern architectural joint where a concrete wall meets a smooth plaster ceiling. A subtle, elegant 12mm air ventilation slot is integrated invisibly into the joint. The slot is dark and clean. Below the slot, a single delicate green leaf of an indoor plant moves imperceptibly. Highly minimalist, technical detail, clean lines, natural daylight.

ASSET S-03: ILUMINACIÓN CIRCADIANA (LUZ INDIRECTA)

Concepto: Bañado de luz rebotada en concreto para simular la luz de la luna.

Interior shot of a minimalist bedroom during twilight. The room is built from raw concrete and warm travertino stone. The lighting is completely indirect and organic, coming from hidden light sources that softly wash the concrete walls with a warm golden-indigo glow, simulating moonlight. No visible light fixtures or bulb housings. Moody, calm, luxury.

ASSET S-05: DISEÑO SILENCIOSO (MATERIALES NOBLES)

Concepto: Bodegón de materiales táctiles del proyecto (concreto, travertino, bronce).

Still life photography of noble architectural samples resting on a concrete table under natural sun. A raw block of beige porous travertine stone, an oxidized bronze sheet with a dark golden patina, and a piece of raw concrete. High contrast shadows. Texture study, tactile, organic materials, editorial layout.

4. SECCIÓN PROYECTOS / OBRA CIVIL

ASSET P-01: CASO 01 - PABELLÓN DEL AGUA

Ubicación: Tarjeta de proyecto principal. Espejo de agua e integración de hormigón.

Professional architectural photography of a minimalist outdoor pool pavilion. A flat sheet of natural, still water reflects a tall raw concrete wall showing wood-board formwork details. The shot is captured during the blue hour/twilight, with the sky turning a deep indigo-orange. Golden warm indirect light glows at the base of the wall. Serene composition, 16:9.

ASSET P-02: CASO 02 - RESIDENCIA ARENA

Ubicación: Detalle de sala con microconcreto color arena y luz natural.

Interior of a high-end minimalist living room. The floor is made of warm sand-colored micro-concrete. Vast floor-to-ceiling glass windows let in harsh afternoon sunlight, casting long, sharp linear shadows of structural pillars across the floor. Raw, unpainted concrete walls. Warm, geometric, sophisticated, highly atmospheric.

5. SECCIÓN ESPACIOS (PORTFOLIO CIRCADIANO)

Para lograr la transición dinámica de luz y sombra en la Habitación Celestina, se requieren tres imágenes tomadas bajo la misma perspectiva exacta para lograr fundidos fluidos (crossfades).

ASSET E-01A: HABITACIÓN CELESTINA (FASE DÍA)

Minimalist luxury bedroom built with raw concrete walls and a polished light gray concrete floor. A low-profile wooden bed with linen sheets is positioned in the center. Bright, natural, diffuse morning light from a large skylight washes the concrete wall behind the bed, filling the space with a soft celestina blue sky tone. The atmosphere is fresh, airy, and clean. No lamps visible. 16:9 aspect ratio.

ASSET E-01B: HABITACIÓN CELESTINA (FASE ATARDECER / GOLDEN HOUR)

The exact same minimalist raw concrete bedroom as E-01A, but during golden hour. Low-angle warm amber sunlight slices across the bed and casts long, dramatic shadows on the concrete floor. The light is deep orange and gold, reflecting a serene sunset. The concrete textures are heavily emphasized by the raking light. 16:9 aspect ratio.

ASSET E-01C: HABITACIÓN CELESTINA (FASE NOCHE)

The exact same minimalist raw concrete bedroom as E-01A, but during late night. The space is dark charcoal and silent. A soft, dim, warm amber light washes the lower portion of the concrete walls from hidden ground-level sensors, illuminating the floor pathway sutilmente. The sky above through the skylight is dark indigo. 16:9 aspect ratio.

6. SECCIÓN CONFIGURADOR (BLOQUES ISOMÉTRICOS)

Los iconos de selección del configurador deben parecer esculturas físicas talladas en concreto sobre fondo negro absoluto.

ASSET C-01: BLOQUE DORMITORIO (CONFIGURADOR)

A perfect isometric 3D render of a single monolithic block carved entirely from raw, matte gray concrete. The block has a minimalist recess in the shape of a simple geometric bed. The block sits on an absolute black background. High contrast, clean architectural shadows, raw stone texture, high fidelity.

ASSET C-02: BLOQUE SALA DE ESTAR (CONFIGURADOR)

A perfect isometric 3D render of a single monolithic block carved entirely from raw, matte gray concrete. The block has a minimalist recess in the shape of a simple geometric sofa. The block sits on an absolute black background. High contrast, clean architectural shadows, raw stone texture.

ASSET C-04: BLOQUE PABELLÓN COMPLETO (CONFIGURADOR)

A perfect isometric 3D render of a cluster of interconnected monolithic blocks carved entirely from raw, matte gray concrete, representing a full residential pavilion. The blocks sit on an absolute black background. High contrast, clean architectural lighting and shadows, raw stone texture.
